M. Eagle, W. G. Wood, D. J. Griest, George Addison, E. L. Barnes, George Pickard, G. L. Coates, T. S. Booker, R. L. Marshman, John Davidson, John Cummerford, Green Woodward, A. L. Berger, Tilford Davis, Joe Green, Silas Porter, O. L. Miller, T. T. Hoffman, W. J. Barry, C. W. Marston, G. W. Toothaker, B. L. Stine, H. W. Gates, C. F. Woestmyer, Benjamin Schnierie, Harry Bell, Barney Poliman, Thomas F. Hannon, C. Angevine.

The convention was called to order promptly at 11 o'clock in Armory hall by Chairman E. A. Enlight, of the old county central committee. To roll call nearly all of the delegates responded. Mr. D. E. Cornell arose and placed in nomination for chairman Samuel McConnell. The nomination was quickly seconded and several voices moved that Mr. McConnell be made chairman by acclamation. It carried with loud applause. Mr. F. D. G. Harvey, the well known colored physician of Argentine, was selected secretary by acclamation and B. H. Whisner was made assistant secretary in the same manner.

Attorney McCabe Moore made a motion that a committee of nine be appointed to arrange a delegation to the state convention. It was amended so as to make the

All were for harmony and Republican success. tion was made up of personal friends of W. J. Buchan and Postmaster Nathaniel The delegates who will represent Wyandotte county at the Hutchinson convention

arrange a delegation to the stale convention. It was amended so as to make the committee consist of ten members. A committee on resolutions was also appointed. Instead of taking a recess speeches were called for, and addresses were made by Attorney W. R. Smith, O. L. Miller, G. W. Martin, Winfield Freeman, J. T. Sims and G. W. Toothaker.

A feature of the convention consisted of the addresses made by G. W. Toothaker and J. T. Sims. They were the two chairmen, who, two years ago, in the same hall, presided over the double-headed convention of Wyandotte county Republicans. Attorney W. R. Smith, who aspires to be associate justice of Kansas, was noticed in the hall, and soon cries for Smith, Smith, rang out. He stepped forward amidst great applause. He began by paying a very high compliment to the delegates for the patriotic manner in which they had acted, and expressed himself as confident of a grand victory for the Republicans next November. Mr. Smith incidentally remarked that he might be honored with the nomination for associate justice, and said that to see his fellow Republicans induige in such a love feast made him feel more than happy. He said the Populists must surrender the state house after next November.

The following committees were appointed:

On a Tour of Investigation, He Allays His Appetite With a Sparrow.

Prom the Atlanta Constitution.

A sparrow hawk with an eagle eye did a very neat plece of work yesterday right in the heart of the city. Where he came from or when he arrived no one could tell, but the first time he was noticed he was perched calmly on the top of a telegraph pole and had in his claws a fluttering English sparrow.

With the sunlight glistening on his brown wings and hundreds of pedestrians staring at him, the daring hawk calmly sat there and put himself on the outside of the sparrow When the start of their an attendant: "Get me a file, Jim," he said.

This sort of thing kept up the better part of half an hour. Then the senior resident turned to an attendant: "Get me a file, Jim," he said.

The said turned to an attendant: "Get me a file, Jim," he said.

The effect was startling. The old woman jumped up from her chair. Her eyes flashed. Her hands closed. Her voice trembled as she almost shouted: "No, you won't file it off: my dead husband put it there when we were married."

Other things she shouted: "No, you won't file it off: my dead husband put it there when we were married."

SORROWS OF A HUSBAND.

Lecture That May Be Taken as a Lesson by Lovesick Youth Everywhere. From the Portland Oregonian.

The British sparrows are very previous birds, and are now pressing the season by pre-empting the hoods of the arc lamps on the streets, and beginning nestbuilding. on the streets, and beginning nestbuilding. A pair were observed working away yesterday, with the usual energy of the species, carrying straws and other material for several hours. Finally it began to rain, and the lady sparrow came down out of the hood, and, standing on one of the wires which convey the current to the lamp, called for her husband. He not appearing, she called again several times in succession, each time louder. At last her mate came flying swiftly, and the pair went up on the shelf, in the hood, where he received a curtain lecture.

He was asked why he did not come when she first called, and was told that if he did not have sense enough to come in out did not have sense enough to come in out of the rain when he was all in a perspira-tion and his pores open, he deserved to take another cold, and have cerebro-spinal-

take another cold, and have cerebro-spinal-meningitis, or some other dreadful thing. He was reminded that he was hardly over the last cold, and the rheumatic complica-tions brought on by getting his feet wet, and that the gash in his scalp received in his terrible fight with that other sparrow, who wanted to settle in the hood, had hard-ly healed, and there were sure to be more fights before they had perfected their title to it.

The poor husband could be heard from The poor husband could be heard from time to time endeavoring to remonstrate, and trying to get in a word edgewise, and explain that he had been endeavoring to secure a particularly large and desirable straw, but, as is usual in such family rows, he was outclassed and never was in it for a moment. Matrimony has its seamy side, even for a sparrow.

Old Letters vs. Gossip.

SEVERAL OF THEM CAPTURED WISH TO

The little feed store at 705 Osage avenue, Kansas City, Kas., known to the people of Armourdale as the "Board of Trade" has ceased to exist. The "Board of Trade" was established several weeks ago by the Pinkerton Detective agency for the purpose of apprehending a gang of grain thieves which the Kansas City board of trade had day-waiting their turn long and until 11 p. m.

which the Kansas City board of trade had been after for several weeks. The object of the feed store was to furnish the thieves a place to market the stolen grain.

The Kansas City board of trade knew that grain was being stolen from cars in several of the railroad yards, principally from the Union Pacific and Rock Island yards in Armourdale. It employed the Pinkerton agency to work on the case several weeks ago. yards in Armourdale. It employed the Pinkerton agency to work on the case several weeks ago.

A plan to capture all the thieves was carried out with only partial success Friday night. They had been getting together in a perk in Armourdale for the purpose of drinking a keg of beer. Sergeant Clark, of Kansas City, Kas., Police station No. 2, who had been working on the case, and several patrolmen, were to make the arrests. They had been furnished with police warants for about thirty persons, several of whom were boys. The officers swooped down upon the gang but several of the thieves escaped.

The leader of the gang was not caught until last night, when he was arrested by Police Sergeant Clark, of Kansas City, He is Feeble MoDermott and says that he has taught the other members of the gang their "trade." Others arrested yesterday were: Thomas Moore, Herman Hudskins, alias Leadskey; Louis, alias Mike, Madison; Ad Madison and John Roudebusk.

Sergeant Clark stated last night that the police had positive evidence against the prisoners. A member of the Kansas City, Mo., board of trade, who has been active in securing the capture of the thieves, said the charges against them would be vigorously prosecuted. He also said their arrest disproved the claims of the railroads that the stealing of grain from cars in the yards here could not be stopped.

JOHN DODD TO BE HANGED This Is the Sentence Pronounced on the Wyandotte County Murderer by Judge Holt.

by Judge Holt.

Judge Alden, of the district court in Kansas City, Kas, yesterday passed sentence upon the following prisoners convicted of felony during the present term of the criminal court:

W. H. Watson, forgery, 1 year in the penitentiary at hard labor; Sam Daniels, burglary and larceny, 8 years; Charles Wells, stealing a horse, 3 years; Robert Manuel, assault with intent to kill, 10 years; N. Thomas, grand larceny, 2 years; Henry Johnson, burglary and larceny, 6 years; William Harris, highway robbery, 15 years; James Noland, burglary, reform school. Charles Wagoner, convicted of burglary, granted a new trial.

In the court of commen pleas Judge Holt sentenced John Dodd, the murderer of Edward and William Carter, father and son, to be hanged. The prisoner received the death sentence with marked coolness, and in a speech to the court abused several of the witnesses and jurors.

Ella Brandfield, a colored woman, who was convicted of highway robbery, was sentenced to ten years in the penitentiary. Sandy Roberts, convicted on the charge of criminal assault, was given seven years at hard labor.

Beaten by the "Birty Dosen."

Beaten by the "Dirty Dozen." G. F. Mansfield, of 909 Oak street, had trouble with some of the members of the "Dirty Dozen" crowd in the North end last night. They waited for him at Fourth and Broadway and attacked him. He claims S. I. Rogers struck him with a blunt instrument. A deep gash was cut in the back of his head. Dr. Norberg dressed the injury at police headquarters and Mansfield was sent to his home.

Fell Against Railing of Saloon Bar. Edgar Berry, of Twenty-seventh and Forest, an employe of Schwarzschild & Sulzberger Packing Company, got drunk last night and fell against the railing of a salbon bar in the West bottoms, cutting a gash about two inches long in the back of his head. Dr. Norberg dressed the wound at police headquarters.

CURE FOR INSOMNIA.

Mark Twain Suggests One Which He

Says Has Proved Very

Effective.

In this neurotic age of ours, when nervous troubles seem to have become the prevailing malady of the time, says the Baltimore Sun, it appears but natural to hear many persons complaining of insomnia, or sleeplessness. For this is a disorder of nervous origin, chiefly arising, the doctors tell us, from mental anxiety or overwork, although these two causes do by no means exhaust its pathogenetic list. As it is said to be "one of the earliest features of acute mania," insomnia, a disease seldom, if ever, found among dull or thoughtless individuals, has not infrequently been associated with genius, which Lombroso places among the chief signs of madness. Brain workers, it is asserted, most commonly are affected by it. Various remedies are suggested. Few afford relief, it is, therefore, with some satisfaction that we are able to introduce the case and example of a famous American writer and his infallible cure. Unfortunately, we are compelled to accept it from "second hand."

Michael Davittin his new book on travels in Australia, speaking of Mark Twain, a fellow passenger, tells that one of this genial writer's stories was about a cure for sleeplessness, from which he suifered. "It is now said that the famous old Astor house, which is still a paying and prosperous hotel, will soon be torn down and replaced by a twenty-five story office building. This still apaying and prosperous hotel, will soon be torn down and replaced by a twenty-five story office building. This still a paying and prosperous hotel, will soon be torn down and replaced by a twenty-five story office building. This still a paying and prosperous hotel, will soon be torn down and replaced by a twenty-five story office building. This still a paying and prosperous hotel, will soon be torn down and replaced by a twenty-five story office building. The two ounces that it is an exceptionally advantageous location for a tall building. sociated with genius, which Lombroso places among the chief signs of madness. Brain workers, it is asserted, most commonly are affected by it. Various remedies are suggested. Few afford relief. It is, therefore, with some satisfaction that we are able to introduce the case and example of a famous American writer and his infallible cure. Unfortunately, we are compelled to accept it from "second hand."

Michael Davitt, in his new book on travels in Australia, speaking of Mark Twain, a fellow passenger, telis that one of this genial writer's stories was about a cure for sleeplessness, from which he suffered. "It proved a real remedy: so much so that I began to like my medicine. The two ounces of 'Scotch' grew into five ounces. Then the trouble began again. It was the old story of taking too much of a good thing. To cut the story short, I sought another remedy and found it, It was a German grammar. I began to read it lying down. I never got through a single page at a time. Sleep came along and never gave the grammar a chance. Try it, and you will find it a dead certain cure. I tried to induce the late General Grant to adopt it, but I could not succeed. Otherwise he would not have died so soon. May I recommend a mixture of whisky and German grammar? If you have not a German grammar in the house, add an extra tablespoonful of the other."

TO THE CROWDS who so patiently stood in line yesterday-our opening TO THE CITY FATHERS for the crowds in front of our store all day

this-The people know that bargains such as we offer ARE UNUSUALthat a 5c and 10c store such as we opened yesterday is a genuine one in every sense of the word. We desire to say that % of our stock was not displayed; that to-morrow many hundreds of novelties will be added. Each day will show many new things at either 5c or 10c.

Yours for 5 or 10,

6000000000000 🔷 000000000000

of silence and asked Whistler's advice he replied, "Join it." Of a different quality was his rejoinder to a flattering admirer who declared that there were only two really great painters—Whistler and Velasquez. "Why drag in Velasquez?" he inquired languidly. And cutting indeed was his remark to the author of "Lady Windermere's Fan." Whistler had just said some brilliant thing and Wilde exclaimed, admiringly: "By Jove, Whistler, I wish I had said that." "Never mind, Oscar," was the consoling reply, "you will."

WORLD'S RICHEST LAND.

me High Prices Which Have Been Paid for Real Estate in New York City.

The most valuable plot of ground in the world, at least the one that has commanded the highest price, is located at the cor-ner of Broad and Wall streets, New York city, in the heart of the great financial dis trict. Several years ago Mr. Wilkes established a record for high priced realty by paying \$168,000 for 508 square feet of ground on this site, or \$330.70 per square foot.

The immensity of this rate of valuation

can best be appreciated by measuring off a square foot of space and then comparing dimensions with those of \$330 in n Such a comparison will show that if Mr. Wilkes had paid for his property in \$1 bills he would have been able to cover his bills he would have been able to cover his entire lot with eighty-two layers of green-backs, or he could have paved it with four tiers of silver dollars placed edge to edge so closely as they would lie. Doubtless, if the worthy Dutch burghers of New Amsterdam could return to earth they would be astonished to learn the value of the land on which they pastured their cows 200 years ago.

land on which they pastured their cows 200 years ago.

Though no other piece of ground has commanded an equal price per foot, there are several other plats in New York city which are quite equal to the Wilkes property in value, For example, a considerably larger lot on the northwest corner of Nassau and Pine streets, one block above the Wilkes property, was sold last year for 250 per square foot, and the opposite corner of the same streets, including 6,043 feet, was bought by the Hanover National bank for \$1,350,000. The lot on the corner of Broadway and Maiden Lane, and the site of the Commercial Cable Company's building in Broad street, are also proper-

Size of a Teaspoon.

Size of a Teaspoon.

Dr. D. E. Walker, of Ilion, N. Y., writes in the Medical Record as follows: I recently addressed a note to silversmiths of your city, directing attention to the wide variation in the capacity of teaspoons, and asking if a pattern of uniform and definite capacity could not be adopted by the silversmiths of the country.

This seems almost a trifle, but inasmuch as teaspoons are the universal standard, in domestic use, of measuring doses and as they vary between the colonial spoon of one dram, and the modern spoon (tea) of two drams, it might be of sufficient importance, as a matter of convenience to the profession, to invite some co-operation in an effort to obtain a teaspoon of standard capacity.

"She is very frigid in her manner" re-

The San Francisco Argonaut has collected a few of the most famous of the vitriolic sayings of Whistler, the artist, whose bitterly sarcastic tongue, one writer says, has made him the most unpopular man in England. To an aggrieved painter who alleged himself the victim of a conspiracy ington Star.

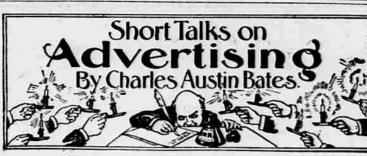

"She is very frigid in her manner," remarked Willie Washington. "Perhaps," was the reply, "but she has a heart of gold." "So I have been informed. But I am tired of trying to cross a conversational Chilkoot pass in order to reach it."—Washington.

MOOSE IN HARNESS.

Bill Germayne, of Helena, Mont., says the Cleveand Plain Dealer, is endeavoring to dispose of a female moose to the park board. He has broken the animal to the saddle and to the road wagon and says that he can drive her in 2:10.

"Riding a moose," said Germayne, "is the riding a camel. The movement is a sliding movement and not an up and down movement like horseback riding. The movement like horseback riding. The movement like horseback riding. The movement like horseback riding a movement and not an up and down movement like horseback riding a movement and not an up and down movement like horseback riding a movement and not an up and down movement like horseback riding. The movement is a sliding movement and not an up and down movement like horseback riding. The movement like horseback riding. The movement like horseback riding to the moose is much stronger than the horse house is much utility for commercial purposes. I am anxious to dispose of this one, however, because it would cost too much to transport it back to Montana."

People used to say: "Oh, I never pay any attention to advertisements; they never tell the truth." Now it's different; people do read advertisements, and they believe them. Advertisers are becoming more

careful and more scrupulously truthful every day. I know a firm of advertising agents who also own a medicated soap. I said: "Is it really such a wonderful thing, and do you take the care you say you do in making it?" The an-

swer was: "Of course it is a good thing. We have seen too much of advertising to be fools enough to spend money pushing a poor article." Most all advertisers understand this nowadays, and that is why it pays better

The best place to put an advertisement is in the paper that enjoys the confidence of the community. I believe that the standing of the paper reflects on the advertisements it carries. There is another thought which . never occurred to me, but which was conveyed in a re-

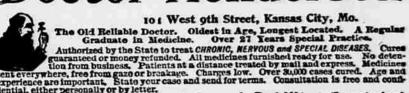

mark recently made to me by Mr. M. M. Gillam, the advertising manager at Wanamaker's. He said: "A sleepy paper gathers a sleepy constituency. An alert, wideawake, progressive sheet gets readers who like that sort of thing-or lifts them to its level." Wideawake people are the ones most influenced by

advertising-progressive people, who are not afraid of a new thing or a new idea; people who believe in the paper they read because they have learned to rely on it. Depend upon this. If the editorials carry weight, the ads. will pay. Put your trust and your money in that sort of

Occasionally an advertisement will fall flat. The wise man looks for the reason. He doesn't say blindly: "Advertising doesn't pay." He looks at the condition of general trade, at the weather, at the goods and the price and the way the

This is certain: A readable ad. in a readable paper will be read. Probably not by all of the readers of the paper, but by a sufficient number to make the ad. pay if the goods are right. No doubt about it whatever. It's as sure as sunshine. A cloudy day comes sometimes, but it doesn't
